

30 Years of
Sprinter

THE 2026 SPRINTER

THE SPRINTER

[Learn More](#)

Proudly Built in Düsseldorf, Germany.

From performance and durability to capacity and cargo space, there are countless reasons why the Sprinter is a smart investment. But here's one more: since 1962, our historic 325,000-square meter plant in Düsseldorf, Germany, is home to over 5,500 skilled workers committed to helping assemble one of the most advanced vehicles on the road today.

High satisfaction. Low cost of ownership.

The Sprinter is designed to deliver cost effectiveness that lasts for years.

2.0L 4-CYLINDER DIESEL ENGINES - HIGH AND STANDARD OUTPUT

The new 4-cylinder diesel engine balances low fuel consumption and low emissions with quiet noise and vibration levels. With high torque and high elasticity at low speeds, this new engine supports off-road driving.

9G-TRONIC 9-SPEED AUTOMATIC TRANSMISSION

This transmission offers optimal driving comfort and quick shifting. A high gear ratio allows for more torque at lower speeds, improving maneuverability and enhancing the steering feel for efficient highway driving.

20000

UP TO 30,000-KM (20,000-MILE) SERVICE INTERVAL¹

The Sprinter's Best-in-Class service intervals of up to 30,000 km¹ (20,000 miles) for diesel keeps you on the road, raising productivity and lowering the total cost of ownership.

PERFORMANCE

[Learn More](#)

Jump-start your future.

Take your business to the next level with a Mercedes-Benz engine, made to move you toward success.

2.0L 4-CYLINDER DIESEL ENGINE - HIGH OUTPUT

CONFIGURATION:
DOHC

INDUCTION SYSTEM:
Common-Rail-Direct-Injection (CDI)

BORE/STROKE:
82 mm/92 mm

HORSEPOWER @ RPM:
208 hp @ 3800 rpm

TORQUE lb-ft @ RPM:
450 N·M @ 1400-2400 RPM (332 LB-FT @ 1400-2400 RPM)

TRANSMISSION:
9G-TRONIC 9-speed Automatic Transmission

2.0L 4-CYLINDER DIESEL ENGINE - STANDARD OUTPUT

CONFIGURATION:
DOHC

INDUCTION SYSTEM:
Common-Rail-Direct-Injection (CDI)

BORE/STROKE:
82 mm/92 mm

HORSEPOWER @ RPM:
168 hp @ 3800 rpm

TORQUE lb-ft @ RPM:
400 N·M @ 1300-2400 RPM (295 LB-FT @ 1400-2400 RPM)

TRANSMISSION:
9G-TRONIC 9-speed Automatic Transmission

A step ahead, in every direction.

When it comes to active safety and driver's assistance features, the Mercedes-Benz Sprinter is the benchmark.

ACTIVE BRAKE ASSIST² senses the likelihood of a collision with a vehicle ahead, and sends both a visual and audible warning; autonomous braking can also be initiated.

ACTIVE DISTANCE ASSIST DISTRONIC³ is an intelligent cruise control system that senses traffic conditions and actively controls your speed to keep you at a set distance.

BLIND SPOT ASSIST⁴ uses radar sensors to monitor the area behind and next to your vehicle - if a vehicle is detected, a visual warning will appear in the exterior side mirror. The system's Rear Cross-Traffic Alert (RCTA)⁵ employs automatic braking to avoid a collision with traffic that is crossing the vehicle's path (e.g., vehicles or pedestrians) when reversing.

SIDEGUARD ASSIST⁶ provides visual and acoustic warnings while turning when a road user (e.g., cyclist) enters a defined area on the passenger side.

PARKING PACKAGE⁷ uses twelve distance sensors and the reversing camera to support you while parking in confined spaces or driving out of exits. It warns you of objects around the vehicle, limits speed when driving off if obstacles are detected ahead, and displays dynamic guidelines when using the reverse gear.

ACTIVE LANE KEEPING ASSIST⁸ provides visual and audible warnings if your vehicle leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have unintentionally veered from lane markings.

CONNECTIVITY

[Learn More](#)

CHARGING OPTIONS are strategically located on the dashboard, and include USB-C ports and 12V chargers as standard equipment, along with an available wireless option.

SMARTPHONE INTEGRATION for Apple CarPlay® and Android™ Auto,⁹ as well as Bluetooth® capability, is available in the Sprinter.

THE ADVANCED MBUX (MERCEDES-BENZ USER EXPERIENCE) MULTIMEDIA touchscreen system in the Sprinter offers class-leading communication and entertainment technology.

REMOTE ENGINE START in the Mercedes-Benz app lets you prepare for any trip. Plus, you can cool down or heat the cabin, so as soon as you step inside, you're completely comfortable and ready to drive.

Available on Sprinter for both personal and business use, Mercedes-Benz Digital Extras¹⁰ ensures that you remain connected to your van at all times and from anywhere. Add an additional layer of safety, comfort, and efficiency with Mercedes-Benz Digital Extras¹⁰

CONNECTIVITY SOLUTIONS FOR YOUR VEHICLE¹²

MERCEDES-BENZ APP¹³ — the direct line to the driver. The driver can easily access valuable vehicle-related information.

MERCEDES-BENZ PORTAL
Manage your account's users and your vehicle's Mercedes-Benz Digital Extras¹⁰ in the Mercedes-Benz Portal.

COMMUNICATION MODULE¹¹
This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the permanently installed 4G LTE SIM card.

Mercedes-Benz Digital Extras¹⁰

Mercedes-Benz Digital Extras¹⁰ is the digital extension of your van. Whether you're getting customer support or simply checking your fuel, Mercedes-Benz Digital Extras¹⁰ is here to make life easier.

BENEFITS AT A GLANCE:

- **Mercedes-Benz Digital Extras¹⁰** provides a quick snapshot of your mileage, fuel level, tire pressure¹; and more. Plus, you can see your vehicle's location, and lock or unlock the doors¹⁴ at the touch of a button.
- **Enjoy maintenance and support with a personal touch.** From maintaining your vehicle to receiving help in the event of an accident¹⁵; Mercedes-Benz Digital Extras¹⁰ provides an additional layer of comfort and safety¹⁵.
- **The Mercedes-Benz App¹³** provides an overview of your vehicle by housing your remote access services. Download the app today, and take full advantage of your Mercedes-Benz App¹³. Available on the App Store and Google Play.

For more information, visit our website at <https://www.mercedes-benz-vans.ca/en/connectivity>

CARGO

Work smarter.

**SPRINTER
MODELS**

Whatever your work demands are, the Sprinter Cargo Van can give you the flexibility to create a configuration that meets your exact needs.

Available on the single tire models, this wheel arch covering's square shape and flat top provide extra storage opportunities, as well as protection for the wheel arch.

The rear doors feature hinges with self-locking mechanisms and, optionally, open 270 degrees.

LED strip lighting improves cargo-loading vision.

Lashing rails available on side, wall, and floor help with hauling and securing cargo.¹⁶

The Sprinter 4500 model sets the benchmark for payload capacity of up to 3,090 kg (6,812 lbs).

Sprinter Cargo Vans are available in 2500, 3500, 3500XD & 4500 series.

ENDNOTES

1. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
2. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds, and additional information and warnings.
3. Active Distance Assist DISTRONIC® is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
4. Blind Spot Assist is a warning system only, and may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds, and additional information and warnings.
5. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity, or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips, and warnings.
6. Sideguard Assist is a warning system only. It should not be used as a substitute for driver awareness and checking surrounding road conditions. The responsibility for safe maneuvering remains with the driver. See Operator's Manual for system's operating speeds and additional information and warnings.
7. The Parking Package serves solely as an aid. It should not be used as a substitute for driver awareness and actively checking around the vehicle for any obstacles or people. The responsibility for safe maneuvering remains with the driver. See Operator's Manual for system's operating speeds and additional information and warnings.
8. Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift, and cannot be relied on to avoid an accident or serious injury.
9. Apple CarPlay® is a product of Apple Inc. Android™ Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content, and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges, and restrictions in user's wireless plan. Vehicle's factory audio/information interface, including COMAND® navigation, may not be used simultaneously with Apple CarPlay® or Android™ Auto. When Apple CarPlay® or Android™ Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
10. Models shown may include options/packages not standard on a Sprinter. Mercedes-Benz Digital Extras is generally available for Canada with the new Sprinter equipped with a Communication Module (LTE). Contact an authorized Mercedes-Benz Vans dealership for more information. Specifications are subject to change. Services require vehicle cellular connectivity and availability of vehicle GPS signal. MB Canada reserves the right to change or discontinue Mercedes-Benz Digital Extras at any time without prior notification or incurring any future obligation. See Terms of Use of the Mercedes-Benz Digital Extras at <https://www.mercedes-benz-vans.ca/en/connectivity>.
11. The availability of services in addition to the integrated Communication Module for Digital Services (LTE) depends on the network coverage of the mobile network provider. The Communication Module for Digital Services (LTE) is equipped in the Sprinter and is necessary to make use of Mercedes-Benz Digital Extras. The availability of certain features may be limited at the current time.
12. Please refer to <https://www.mercedes-benz-vans.ca/en/connectivity> for more details. Restrictions may apply.
13. Using the Mercedes-Benz App while driving might distract you from traffic conditions. This could cause you to lose control of the vehicle, which could result in an increased risk of endangering yourself and others, including the risk of accidents, personal injuries, and death. In order to prevent distracted driving, the use of the Mercedes-Benz App is not permitted while operating a motor vehicle. Please follow all applicable federal, state, and local laws and restrictions, and observe the legal requirements of the country in which you are currently located.
14. The Remote Control function via the Mercedes-Benz App makes it possible for you to view the status of the doors. The driver is also able to lock and unlock the vehicle using a code via the Mercedes-Benz App.
15. By using the Accident and Breakdown Management service, the vehicle data and location are collected. Accident and Breakdown Management is available only in conjunction with the Emergency Call System. The Communication Module for Digital Services (LTE) is required to use the Accident and Breakdown Management service.
16. Unsecured cargo can become hazardous in a collision. Always secure cargo.
17. Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.
18. eXpertSOLUTIONS program vehicles are custom, special-order-only vehicles modified by the eXpertSOLUTIONS provider of your choice. Although the MB Canada warranty does not apply to the modifications, separate warranties offered by the eXpertSOLUTIONS provider may apply. Details are available from your local dealer.
19. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
